# Operations and SLA manual

## 1. The "24-Hour Approval" Guarantee (SLA)

CredFlow commits to providing a definitive "Approve" or "Decline" decision within **24 business hours** of a "Completed Application" status.

- **Definition of "Completed":** All KYC documents (PAN/Aadhaar) uploaded, Bank Statement (PDF or Account Aggregator) fetched, and GSTIN validated.
- **Disbursement Timeline:** Once the digital loan agreement is E-Signed via Aadhaar-based eSign, funds are typically disbursed via **IMPS/NEFT** within **4 working hours**.

## 2. Troubleshooting: Digital KYC & Onboarding

- If an applicant is stuck, use the following resolution protocols:
  **CredFlow Technical Issue & Resolution Guide**

- **Issue: Aadhaar OTP Not Received**
  - **Root Cause: The user's mobile number is not linked to their UIDAI account.**
  - **Resolution Protocol: Advise the user to use the "Offline XML" KYC method or visit a physical Aadhaar Kendra.**
- **Issue: GST Validation Failure**
  - **Root Cause: API Timeout or incorrect credentials provided by the user.**
  - **Resolution Protocol: The system will automatically retry 3 times. If failure persists, request the user to upload GSTR-3B PDFs for the most recent 6 months.**
- **Issue: Bank Fetch Error**
  - **Root Cause: User's Internet Banking is inactive or not set up.**
  - **Resolution Protocol: Direct the user to upload "Digitally Signed" PDF bank statements generated from their mobile banking application.**
- **Issue: Face-Match Failure**
  - **Root Cause: Poor lighting during the selfie or the photo on the ID card is too old.**
  - **Resolution Protocol: Trigger a "Live Video KYC" (V-KYC) call with a human agent, available between 9 AM and 8 PM.**

## 3. Document Exception Policy

In cases where standard data is unavailable, the following "Alternative Truths" are accepted:

- **No GSTIN:** Only applicable for "Personal Prime" or "Flexi-Credit." Not eligible for "MSME Growth" products.
- **New Business (<1 year):** Requires a minimum of **₹5,00,000** in personal collateral or a Co-Applicant with a CIBIL score >750.
- **Address Proof:** If the Aadhaar address is not current, a Utility Bill (Electricity/Piped Gas) or a Registered Rent Agreement is mandatory.

## 4. Post-Sanction Workflow

1. **Offer Generation:** AI generates the "Sanction Letter" including the final ROI (Rate of Interest) and PF (Processing Fees).
2. **E-Mandate:** User must set up an **e-NACH mandate** for automated monthly EMI deductions.
3. **E-Sign:** Both parties sign the loan agreement using **Aadhaar-based OTP authentication**.
4. **Final Audit:** A 10-minute automated fraud check (Sanctions List/AML) is run before the "Disburse" button is triggered.

**5. Customer Support Escalation**

- **Level 1:** AI Chatbot (Available 24/7).
- **Level 2:** Email Support (help@credflow.in) - Response within 4 hours.
- **Level 3:** Nodal Officer - For unresolved grievances exceeding 7 business days.
